E EVENING STAR.

GGLISG IN A SMALL WAY -The Cincinnati frer informs us that a lot of quinine, now a scarce article in the South, reached Tennessee recently, concealed in a show wagon, the driver of which started for some point in Indiana, crossed the river under the character of being the advance courier of a show, and so contrived to travel through Kentucky until he reached a congenial climate, making, it is said, \$10,000 by the trip It is said that needles sell in the South for five cents each, and two or three weeks since, an individual smuggled into Nashville, in his trunk and about his person, a sufficient number to clear upwards of \$2,000. He has since made a similar speculation upon spool cotton, also a scarce article, and, like needles, very likely to escape detection.

New York is so situated that a river must be crossed and a ferry boat employed to visit all its suburbs. Hence the ferry interest has grown enormously Not less than forty-five millions of passengers are annually carried over the rivers in sixty-five boats, running regularly on eleven different lines. Out of this vast aggregate but a single life was lost during the past year The sole victim was a fireman on one of the boats running between Rocsevelt street and Williamsburgh. who stepped upon the cranks of the engine to clean them, before the engine had stopped, and was orushed to death

Governor Moore, of Alabama, has withdrawn his name as a candidate for re-election. In addressing the people of the State he said there seemed to be a disposition to contest with warmth, and even acrimony, and as such a state of things was most distasteful to his feelings, he concluded to withdraw his name.

JOY FOR THE SICK AND SUFFERING. LET ALL WHO ARE APPLICATED APPLY THE REMEDI REJOICE IN HEALTH.

Friend, do you suffer? Are you the visitin of any of those numerous allmonts which arese from imparity of the blood? What are they, do you ask? Rather ask, what are they not? The blood is the source of life and health, and it is the first element of our being to respond to any cause which affects the syrthm, as the pulse infallibly attacks. The ever the system, as the pulse infallibly attests. The ever prevating Neuralgia, the irritating Erysipelas, the subtle Scrofula, the agonising Rhomatism, Nervous Debility, Dyspepsis, Liver Complaint with its torser and dejection, and the numberiess ills that flesh is heir to, derive their hideous origin from the blood. Deal kindly then and gently with the blood. Use the vitalizing resources of nature for its aid, and suffer us to commend to your confidence and use that truly valuable medicament known as

KRS. M. 001'8 INDIAN VEGETABLE DECOCTION. With regard to this almost infallible specific popular sentiment has spoken in decided terms and the evidences of this great affects and the happinest results from its use are after all other remedies and the best medical skill have failed.

Lat us say, in conclusion, that contributes remedies and the best medical skill have failed.
Let us say, in conclusion, that certificates ource are not sought from the illiterate and superficial, but they are voiunteered from the most respectable sources and justify the highest terms in which it is possible to commend so valuable a specific to public approval. We may add also that the curative proporties of the medicine are equalled only by he restorative effects, the system recovering from disease with renewed constitutional vigor.
